

Hoot and Howl

Layla Cline and Mia Crawford

Original Space

Our
Proposed
Idea 1

Idea Description 1

— — —

- The original mug holder will be in the center of the wall, and on both sides will be shelves already used in the store. The shelves are wood and pipes.
- Underneath the shelves will be bar carts that allow for more space to be used for larger pottery pieces. The bar cart is three layers.
- All of these pieces are put together to allow for the natural aesthetic of Hoot & Howl but maximize the space given for adding pottery and other pieces that allow for a more cohesive aesthetic, like baskets and plants.

Material List and Price 1

Wooden Shelving \$116.99

Idea 2

Idea Description 2

— — —

- Starting from the right side of the wall there will be a wooden beehive shaped holder for items.
- The same holder will be in the center of the wall and this piece will be followed by that same holder to the left.
- These three pieces allows to display a huge variety of mugs, pottery or really any other items that need to be displayed.
- These beehive shaped wooden holders is able to hold smaller items as well as larger items keeping everything very organized.
- Under all of these bee shaped wood holders there will be black wood hooks going along the bottom of this display.
- These black wooden hooks can hold mugs adding extra space to include as many items as possible. On top, pottery items can sit allowing for more space as well.
